SUPPLEMENT TO REPORT NO. 25X1X

1. In June 1950 the Chinese Communists organized four reconnaissance groups to watch ship movements along the Chinese coast. The first group was stationed in Shanghai, the second in Foochow, the third in Swatow, and the fourth in Yulin, Hainan. The fourth group is divided into five sections and is stationed as follows: Hsisha (112-00, 16-00), Peihai (109-05, 21-24), T'ungching Bay (108-00, 20-00), Wanshan (113-00, 21-00), and Shanwei (115-00, 22-00).
2. In order to watch the movements of Nationalist and U.S. warships, the fourth group has organized the Nan Hai Fishing Company in Yulin. Agents of the Nan Hai Fishing Company operate radios on regular commercial boats. The company obtained this privilege by claiming it would help solve financial and technical problems for commercial fishermen.
3. In October, the Nan Hai Fishing Company received twelve new fishing boats from dockyards in Canton and Shanwei. It has also asked OCHI (趙 翥), a Japanese Communist, to buy eight steel-hulled 100-ton fishing boats in Japan for use in collecting information in Nationalist areas. Each boat can be equipped with two 30.5mm anti-aircraft guns.
4. In early November the Nan Hai Fishing Company sent its business manager, P'AN Kuo-hsiung (潘國雄),* to Hong Kong to employ additional crew members for its boats. P'AN was accompanied by a Japanese, SHOU P'u (曹浦), an engineer employed by the Hai Yang (海 洋) Fishing Company, Hong Kong. They hired fourteen men for the Nan Hai Fishing Company, two of whom are CHIN Wen-te (金文德) and TS'AI Tz'u-k'uei (蔡賜奎).

25X1A * Comment. PAN has been previously associated with the recruitment of Japanese and Korean seamen for the Chinese Communists. [REDACTED]
